ABOUT US

Founded in 2008, CompConsult Technologies has developed into a mature, multi-faceted company offering sophisticated business solutions throughout sub-Saharan Africa. CompConsult Technologies continues to be a leader in the market by focusing on brand alignment, client service and partner relationships.

CompConsult's investment in people Intellectual property and best and best of breed brands is the key differential embedded in "Value beyond technology".

The ability to deliver measurable business value is what makes us offer more than simply a comprehensive suite of excellent software, hardware and network infrastructure products.

Our company has in the past worked with the leading Telecoms and contractors in Uganda

and we have proved our worth through the works. Our value adding works and services have contributed to the successful completion of the project we have handled.

CompConsult Technologies is well liquidated and fully equipped to undertake installation and implementation of systems such as Mobility management, Customer Management, Enterprise Resource Planners (ERP) and Financial Management Systems, Hardware and related equipment supplies and maintenance.

Our team of professionals works at understanding your needs, the structural requirements of the project and processing solutions that not only fit those requirements but also are scalable and reliable in a manner that is up to modern industrial standard.

“

Value
beyond
technology

“
